1	6	11/2/2021	Adrian Heilbut	Not as crazy as photoshopping all of your studies for 20 years.. and putting a molecule into humans based on nonsense. \$SAVA	<a href="https://twitter.com/Adrian_H/status/1455654387691540486">https://twitter.com/Adrian_H/status/1455654387691540486</a>
2	7	11/4/2021	Adrian Heilbut	It is all complete, made-up garbage. If it were not, \$SAVA would be earnestly and openly defending everything in a transparent scientific way.. everything about how they operate is about contriving the appearance of desirable results.	<a href="https://twitter.com/Adrian_H/status/1456275948693770240">https://twitter.com/Adrian_H/status/1456275948693770240</a>
3	8	11/4/2021	Jesse Brodtkin	I will NEVER cover \$sava . Simufilam is a frauuud!	<a href="https://twitter.com/jesse_brodtkin/status/1456272096053526550">https://twitter.com/jesse_brodtkin/status/1456272096053526550</a>
4	9	11/5/2021	Adrian Heilbut	The lies from \$SAVA never end	<a href="https://twitter.com/Adrian_H/status/1456776594366869508">https://twitter.com/Adrian_H/status/1456776594366869508</a>
5	10	11/6/2021	Jesse Brodtkin	Either \$sava has been lying to us for months about having the blots or they submitted faked evidence to the Journal of Neuroscience. Pick one.	<a href="https://twitter.com/jesse_brodtkin/status/1456934307558301697">https://twitter.com/jesse_brodtkin/status/1456934307558301697</a>
6	11	11/7/2021	Jesse Brodtkin	Never \$sava is a total fraud. \$2 in 3 years max guaranteed.	<a href="https://twitter.com/jesse_brodtkin/status/1457490360402391044">https://twitter.com/jesse_brodtkin/status/1457490360402391044</a>
7	12	11/11/2021	Adrian Heilbut	Just to be clear: \$SAVA faked additional “raw” data last week, sent it to @MarinaP63 at J Neurosci to receive their “blessing”, halted the stock, then sent a press release relating this false, engineered news, causing the share price to double. Is there a legal term for that?	<a href="https://twitter.com/Adrian_H/status/1458780796005892097">https://twitter.com/Adrian_H/status/1458780796005892097</a>
8	13	11/11/2021	Jesse Brodtkin	  Get your daily \$SAVA fraud here  It appears that in an effort to clear themselves of manipulated image accusations Cassava submitted some (long pause) MANIPULATED IMAGES.. I know right  , imagine the cajones and contempt that takes 	<a href="https://twitter.com/jesse_brodtkin/status/1458771009813815300">https://twitter.com/jesse_brodtkin/status/1458771009813815300</a>
9	14	11/14/2021	Adrian Heilbut	The privilege to conduct trials under an IND is based on a balance of safety and potential for efficacy. If \$SAVA pre-clinical and clinical data are fabricated or manipulated, or trials not properly run, there is no ethical or regulatory justification for further clinical trials.	<a href="https://twitter.com/Adrian_H/status/1460054040545566727">https://twitter.com/Adrian_H/status/1460054040545566727</a>

				We know IT WILL fail because we see and understand that the biology was MADE UP. It is not a matter of hope, or optimism, or liking what one sees — it is all fabricated nonsense. If you cannot understand or admit this to yourself by now, you are going to be Remi's bagholder.	
10	15	11/16/2021	Adrian Heilbut	2005 was the foundation for 2008, 2012, 2017, and the \$SAVA Simufilam IND, the Phase 2 trials, and SavaDX. It is all fabricated nonsense, built upon other fabricated nonsense, and it is all going to come crashing down. \$SAVA is perfectly happy to light NIH and investor money on fire so long as they manage to siphon off a large chunk of it for themselves	<a href="https://twitter.com/Adrian_H/status/1460700822279532546">https://twitter.com/Adrian_H/status/1460700822279532546</a>
11	16	11/17/2021	Adrian Heilbut	this is just the start.. the whole \$SAVA charade is going to unravel now cc: @MarinaP63 and I have no doubt that the SEC is going to investigate the stunt \$SAVA pulled two weeks submitting additional fabricated data in a fake "Erratum" to fool the Journal of Neuroscience into issuing a statement of "exoneration" the Ph2 clinical data is very much in doubt here too. I agree that this is a rare or unprecedented situation.. typically when something like this happens, the sponsor admits it and stops the trial themselves.	<a href="https://twitter.com/Adrian_H/status/1460978798439157765">https://twitter.com/Adrian_H/status/1460978798439157765</a>
12	17	11/17/2021	Jesse Brodtkin	So will CUNY circle the wagons around \$sava fraud Wang with the SEC looking over their shoulder? (I'm guessing they won't 😏) No Wang=No Patent=No Company=\$0/share	<a href="https://twitter.com/jesse_brodtkin/status/1461003095282966532">https://twitter.com/jesse_brodtkin/status/1461003095282966532</a>
13	18	11/18/2021	Adrian Heilbut	I have no idea, but if someone was looking for people lying to pump in order to sell, the first logical place to check for liars would be \$SAVA management.	<a href="https://twitter.com/Adrian_H/status/1461543350587338754">https://twitter.com/Adrian_H/status/1461543350587338754</a>
14	19	11/19/2021	Enea Milioris	How is it legal for \$SAVA to spinal tap folks and then just make up their biomarker values?	<a href="https://twitter.com/DRnotaDR/status/1461663337066995719">https://twitter.com/DRnotaDR/status/1461663337066995719</a>
15	20	11/19/2021	Jesse Brodtkin	To stop a sociopath from defrauding investors and harming elderly sick people and their families \$sava	<a href="https://twitter.com/jesse_brodtkin/status/1461842547349860355">https://twitter.com/jesse_brodtkin/status/1461842547349860355</a>
16	21	11/21/2021	Jesse Brodtkin	Allowing an obvious fraud like \$sava to continue to take advantage of patients, investors and families makes a mockery of our regulatory framework and markets. 50:50 Remi ends up behind bars.	<a href="https://twitter.com/jesse_brodtkin/status/1462490125494099968">https://twitter.com/jesse_brodtkin/status/1462490125494099968</a>
17	22	11/23/2021	Jesse Brodtkin	For those of you that may have been confused by @SfNJournals decision to actively participate in fraud by exonerating \$sava and surrendering their scientific integrity and voice to Remi, I put a helpful explainer here 😊 cc: @MarinaP63 @JuanLermal @barry_everitt @SECEnfDirector	<a href="https://twitter.com/jesse_brodtkin/status/1463129101821255681">https://twitter.com/jesse_brodtkin/status/1463129101821255681</a>

18	23	11/24/2021	Adrian Heilbut	I'm not assuming anything. The statement put out by JN was patently ridiculous. The "original" blot provided in the Erratum was faked. They need to explain or correct their statement and Erratum, and explain the process that that led to it. @MarinaP63 \$SAVA	<a href="https://twitter.com/Adrian_H/status/1463562262694842372">https://twitter.com/Adrian_H/status/1463562262694842372</a>
19	24	11/30/2021	Adrian Heilbut	The truth about \$SAVA SavaDx is that is a FAKE assay, the only purpose of which is to provide "confirmation" of the "treatment effects" of \$SAVA's inert drug that does not and cannot bind Filamin-A Remi is a special kind of genius. <a href="https://cassavafraud.com/docs/SAVADx_Theranos2.0.pdf">https://cassavafraud.com/docs/SAVADx_Theranos2.0.pdf</a>	<a href="https://twitter.com/Adrian_H/status/1465870478527057920">https://twitter.com/Adrian_H/status/1465870478527057920</a>
20	25	12/7/2021	Adrian Heilbut	He's talking about measuring CSF/Plasma albumin, not SavaDx. That was done so \$SAVA could claim a "Treatment Benefit" on BBB integrity. And it was not done properly or using routine clinical methods, and the numbers are complete manipulated garbage.	<a href="https://twitter.com/Adrian_H/status/1468386878009266176">https://twitter.com/Adrian_H/status/1468386878009266176</a>
21	26	12/9/2021	Adrian Heilbut	Wut? The premise of the entire charade (both for AD and for Bordey's bizarre claims) is that the drug binds FLNA. The key data \$SAVA showed to establish that is physically impossible and MADE UP. It is all a complete fraud.	<a href="https://twitter.com/Adrian_H/status/1469088912232570880">https://twitter.com/Adrian_H/status/1469088912232570880</a>
22	27	12/9/2021	Jesse Brodtkin	No. I don't want to reward fraudulent data. \$sava should be punished so that others do not attempt this scam. The best thing for AD research and patients is to maintain a fraud free and fact based investment environment.	<a href="https://twitter.com/jesse_brodtkin/status/1469095555859103746">https://twitter.com/jesse_brodtkin/status/1469095555859103746</a>
23	28	<a href="#">See Exhibit 28. Report published by Defendants, "Cassava and the Wang Lab: Seeing Through the Blind."</a>			
24	29	12/11/2021	Jesse Brodtkin	Key is "confines of the study", obv Pei and Wang lab are supposed to be blind according to SEC filings and *very probably* study protocol. It's a shit-show of fraud and incompetence. SEC has been informed of \$sava lies on filings 👍	<a href="https://twitter.com/jesse_brodtkin/status/1469782611421716482">https://twitter.com/jesse_brodtkin/status/1469782611421716482</a>
25	30	12/13/2021	Jesse Brodtkin	So much easier to let the rest of society bear the costs of \$sava fraud than to act responsibly and do your job, right @MarinaP63? (Even when the investigation was done for you 😊) cc: @TurrigianoLab	<a href="https://twitter.com/jesse_brodtkin/status/1470366262505226244">https://twitter.com/jesse_brodtkin/status/1470366262505226244</a>
26	31	12/16/2021	Jesse Brodtkin	It looks like my perfectly reasonable letter regarding an opaque investigation of the \$sava manipulated images by JoN didn't make the latest issue. I trust electronic publication can proceed without further delay 👍 The scientific community deserves transparency @MarinaP63	<a href="https://twitter.com/jesse_brodtkin/status/1471481003445268487">https://twitter.com/jesse_brodtkin/status/1471481003445268487</a>

27	32	12/17/2021	Jesse Brodtkin	I think the cognitive scores, like the biomarker data are lies and meant to defraud investors and contaminate the market for real science. \$sava does a disservice to AD patients, and investors. What I have said about \$sava research is true and undisputed by \$sava 🙄	<a href="https://twitter.com/jesse_brodtkin/status/1471936321950302210">https://twitter.com/jesse_brodtkin/status/1471936321950302210</a>

28	33	12/17/2021	Jesse Brodtkin	Important point on the continuing obligation JoN has to it's readers and the scientific community regarding \$sava fraud in it's journal.	<a href="https://twitter.com/jesse_brodtkin/status/1471961847876272129">https://twitter.com/jesse_brodtkin/status/1471961847876272129</a>
29	34	12/18/2021	Jesse Brodtkin	It took a decade for Remi to build the \$sava scam. Through scientific teamwork and perseverance we have exposed this fraud. 30	35	12/20/2021	Jesse Brodtkin	But just on sheer impact, this guy is probably the winner. An image manipulation in response to questions of image manipulation followed by market manipulation. I could see jail time and an Editor resigning justified by this one pic alone. 🚗 \$sava	<a href="https://twitter.com/jesse_brodtkin/status/1473031196334596099">https://twitter.com/jesse_brodtkin/status/1473031196334596099</a>
31	36	12/21/2021	Adrian Heilbut	Decent chance that \$SAVA ends red.. Just another pathetic and increasingly desperate pump-and-dump onto the ignorant and credulous. 33	38	12/29/2021	Jesse Brodtkin	It doesn't matter WHO points out the fraud and lies of \$sava (ad hominem #1). Not baseless as Remi already admitted "visual errors" (you're plain wrong or lying) Wester Blots are the foundation of sava's science 🙄. "Clean" is just wishful thinking #10. 60	65	9/27/2022	Adrian Heilbut	It doesn't halt cognitive decline either, I'm afraid, because all the 'science' behind it was faked by a crazy fabulist, and it is a completely imaginary drug that doesn't even engage its (never-validated) target. Congratulations to them.. has nothing to do with SAVA or their fake drug Simuflimflam has a totally different (imaginary) mechanism	<a href="https://twitter.com/Adrian_H/status/1574916368499195905">https://twitter.com/Adrian_H/status/1574916368499195905</a>
61	66	10/2/2022	Adrian Heilbut	Be careful with this line of thinking. They HAVE been fabricating results, & the justification for the Ph3 was a charade. They're breaking critical scientific and ethical norms that enable human clinical research, as well as regulations. It's 100% made up scientific fraud.	<a href="https://twitter.com/Adrian_H/status/1576669435146174464">https://twitter.com/Adrian_H/status/1576669435146174464</a>
62	67	10/2/2022	Jesse Brodtkin	For just straight-up scientific illiteracy and insult-to-your-intelligence fraud, this one has got to take the top spot (and that's taken from a very rich \$sava data set 😊)	<a href="https://twitter.com/jesse_brodtkin/status/1576672703201042434">https://twitter.com/jesse_brodtkin/status/1576672703201042434</a>

64	69	10/11/2022	Jesse Brodtkin	I don't think DOJ hired EXTRA people to investigate \$sava (probably hired consultants) I think Wang was in the compensation bonus pool. 69	74	5/5/23	Adrian Heilbut	As with the Bordey paper, this is actually a fantastic experiment \$SAVA has done to determine just what kind of fantastical results a lab can come up with when given an inert compound targeting their pet protein	<a href="https://twitter.com/Adrian_H/status/1654637249974214656">https://twitter.com/Adrian_H/status/1654637249974214656</a>

71	76	10/13/23	Adrian Heilbut	Do you really think that the “dog ate my homework” is going to work here? There was no data and no record of any of the work. A reasonable inference and implication might be that the research was never actually done, or in other words, that IT IS ALL MADE UP.	<a href="https://twitter.com/Adrian_H/status/1712840312291225673">https://twitter.com/Adrian_H/status/1712840312291225673</a>
72	77	10/13/23	Adrian Heilbut	It’s a totally different issue, but I can assure you that many of those outraged with \$SAVA were also outraged with Aduhelm and FDA shenanigans and skeptical of amyloid Abs. But there’s equivalence between that and allegedly completely fake science and an allegedly imaginary drug	<a href="https://twitter.com/Adrian_H/status/1712881971347517840">https://twitter.com/Adrian_H/status/1712881971347517840</a>
73	78	3/21/24	Adrian Heilbut	I have multiple motives, but my primary motive is I don’t like bullshit. My motives don’t matter, however, because I am correct. Wang’s fraud and misconduct has already been well established; there is no need to politely wait for more people to be ripped off.	<a href="https://twitter.com/Adrian_H/status/1770980495624487106">https://twitter.com/Adrian_H/status/1770980495624487106</a>
74	79	3/21/24	Adrian Heilbut	It doesn’t work because all of the “science” & justification for testing it has been fabricated or complete bullshit, in my scientific opinion. I don’t need to pretend to do a clinical trial and give grandma a spinal tap to know that for sure.  The other accounts are not me.	<a href="https://twitter.com/Adrian_H/status/1770991599368970713">https://twitter.com/Adrian_H/status/1770991599368970713</a>
